USER INTERFACE AND DESIGN

EXPERIMENT – 7

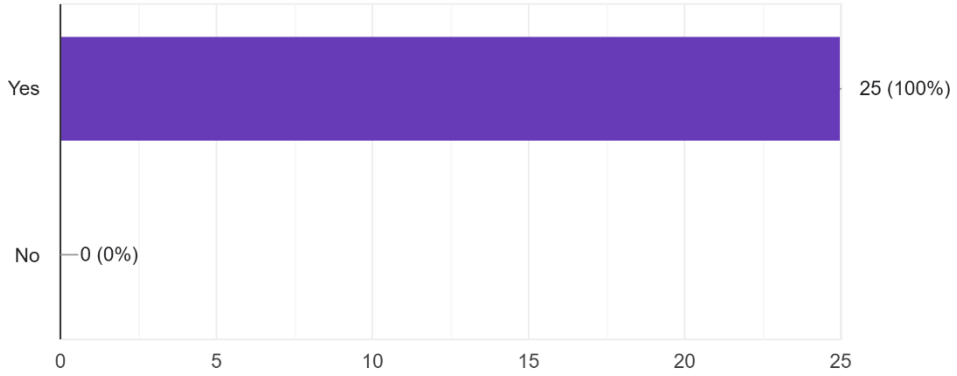
Name : ROHITH KUMAR S Roll No : 240701436

Experiment with different layouts and color schemes for an app. Collect user feedback on aesthetics and usability using GIMP(GNU Image Manipulation Program (GIMP)

Google form feedback responses :

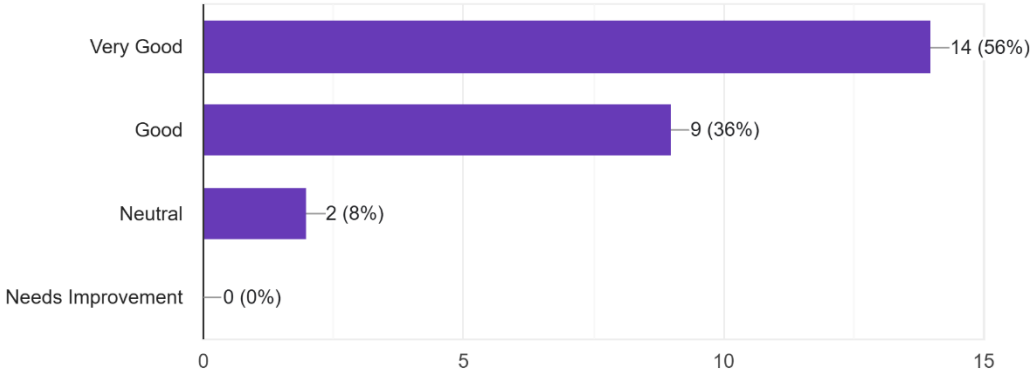
Have you reviewed the prototype?

25 responses



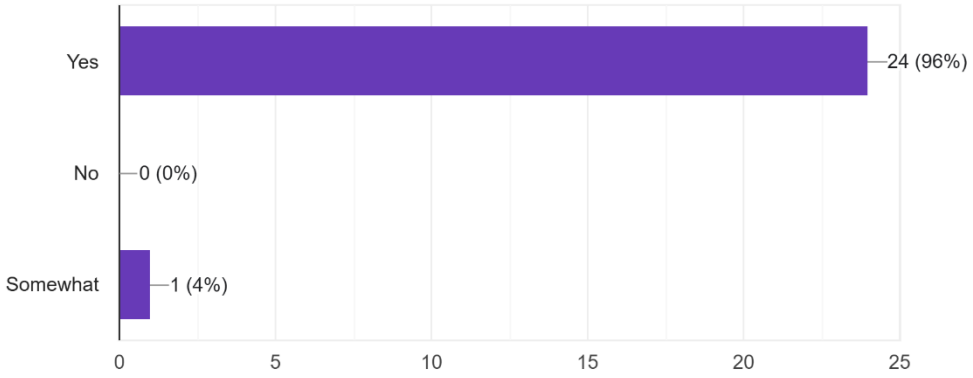
How do you feel about the color scheme?

25 responses



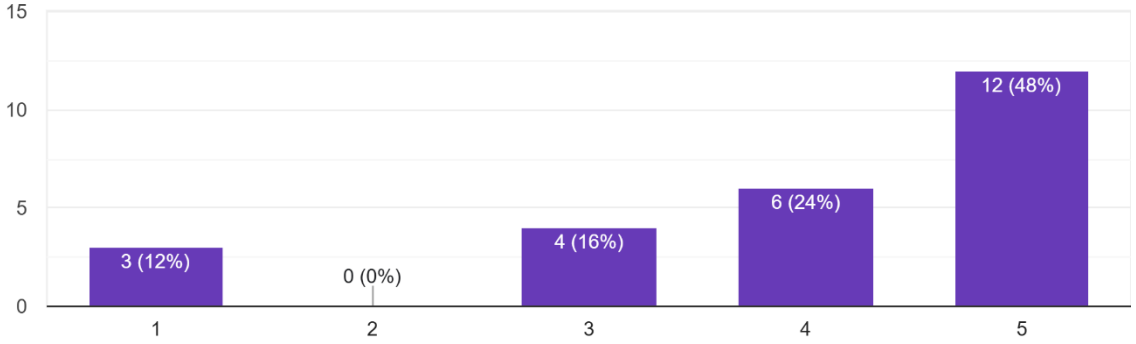
Is the text readable and clear?

25 responses



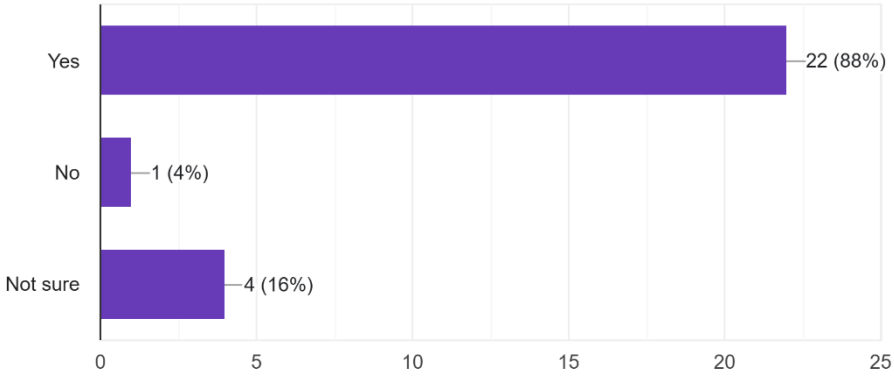
Does the layout look clean and organized?

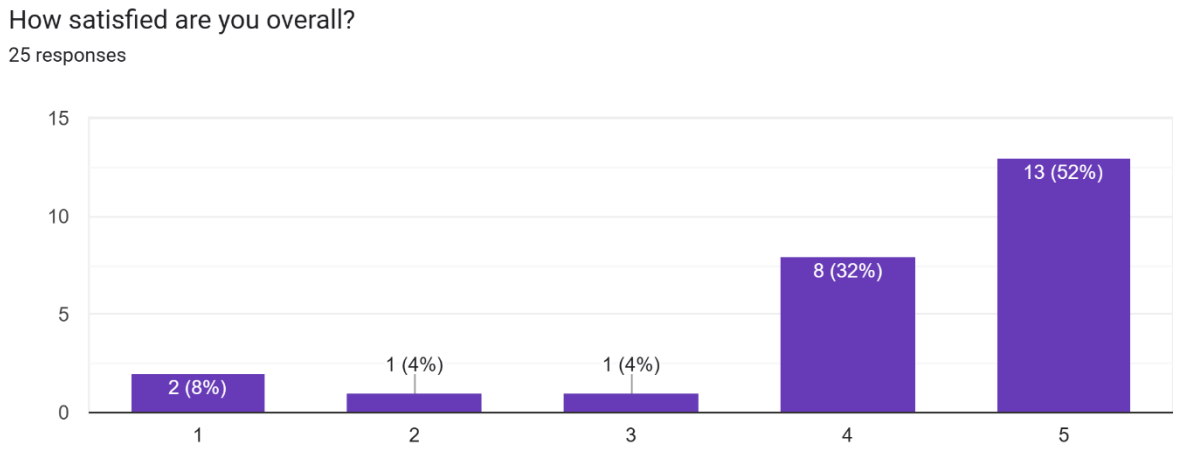
25 responses



Are buttons/icons intuitive?

25 responses





DESIGN REFINATION :

- Change Color scheme :
  Users might get bored of using simple colors , so instead of simple colors using gradient colors may excite the users.
- Animation effect for submit :
  In modern days, animative effect for simple things may captivate user eyes instead of simple feedback version in text
- Dynamic Status effect :
  Instead of text versions with updating status , dynamic updation of each phase may make user interface more reliable
